362

Target

<138

Number of open damp and mould cases classed as an emergency hazard

0

Target

0

Customer missed appointment for safety visits

512

804

*Statistics marked with an asterisk are taken from our transactional surveys. Figures from the repairs survey are based on the most recent quarter, all other transactional survey data is based on the last 12 months. Surveys are designed to measure the customer experience at specific touchpoints. Transactional surveys are sent to customers immediately after a transaction, for instance, straight after a repair has been completed, or once a complaint case has been closed. This enables us to understand the customer's recent experience of that interaction - what has gone well, and what changes we need to make to improve our service in the future.
